DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-2072 applies

Agenda

- Overview of Acquisition Efficiency Initiatives
- Focus on Non-Productive Processes and Bureaucracy
  - Acquisition Documentation Streamlining
  - Status of Other Ongoing Actions
    - Reducing Low Value Added Statutory Requirements
    - Reducing Volume & Cost of Congressional and Internal Reports
    - DAB Decision Briefing Templates
- Next Steps

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

Acquisition Efficiency Roadmap

from USD(AT&L) 14 September 2010 policy memo

Target Affordability and Control Cost Growth

- Mandate affordability as a requirement
- Implement "should cost" based management
- Eliminate redundancy within warfighter portfolios
- Achieve Stable and economical production rates
- Manage program timelines

Promote Real Competition

- Emphasize competitive strategy at each program milestone
- Remove obstacles to competition
  - Allow reasonable time to bid
  - Require non-certified cost and pricing data on single offers
  - Enforce open system architectures and set rules for acquisition of technical data rights
- Increase small business role and opportunities

Incentivize Productivity & Innovation in Industry

- Reward contractors for successful supply chain and indirect expense management
- Increase Use of FPIF contract type
- Capitalize on progress payment structures
- Institute a preferred supplier program
- Reinvigorate industry's independent research and development

Improve Tradecraft in Acquisition of Services

- Assign senior managers for acquisition of services
- Adopt uniform services market segmentation (taxonomy)
- Address causes of poor tradecraft
  - Define requirements and prevent creep
  - Conduct market research
- Increase small business participation

Reduce Non-Productive Processes and Bureaucracy

- Reduce frequency of OSD level reviews
- Work with Congress to eliminate low value added statutory requirements
- Reduce the volume and cost of Congressional Reports
- Reduce non-value added requirements imposed on industry
- Align DCMA and DCAA processes to ensure work is complementary
- Increase use of Forward Pricing Rate Recommendations (FPRRs)

DISTRIBUTION STATEMENT A. Cleared for public release by OSR, 1 April 2011, SR Case #11-S-XXXX Articles

Acquisition Efficiency Guidance

Reduce Non-Productive Processes and Bureaucracy

- Reduce frequency of OSD level reviews
- Work with Congress to eliminate low value added statutory requirements
- Reduce by half the volume and cost of internal and Congressional Reports
- Reduce non-value added requirements imposed on industry
- Streamline Acquisition Documentation

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

USD(AT&L) Better Buying Power Initiative

- **We are part of "Reducing Non-Productive Processes and Bureaucracy"**
  - **Acquisition documents will be reviewed, streamlined or, where feasible, eliminated**
  - **Required reports will also be reviewed**
  - **The value and utility of all reports will be re-assessed**

MEMORANDUM FOR ACQUISITION PROFESSIONALS

SUBJECT: Better Buying Power: Guidance for Obtaining Greater Efficiency and Productivity in Defense Spending

On June 28, I wrote to you describing a mandate to deliver better value to the taxpayer and warfighter by improving the way the Department does business. I emphasized that, next to supporting our forces at war on an urgent basis, this was President Obama's and Secretary Gates' highest priority for the Department's acquisition professionals. To put it bluntly: we have a continuing responsibility to procure the critical goods and services our forces need in the years ahead, but we will not have ever-increasing budgets to pay for them. We must therefore strive to achieve what economists call productivity growth: in simple terms, to DO MORE WITHOUT MORE. This memorandum contains specific Guidance for achieving the June 28 mandate.

Secretary Gates has directed the Department to pursue a wide-ranging Efficiencies Initiative, of which this Guidance is a central part. This Guidance affects the approximately $400 billion of the $700 billion defense budget that is spent annually on contracts for goods (weapons, electronics, fuel, facilities etc., amounting to about $200 billion) and services (IT services, knowledge-based services, facilities upkeep, weapons system maintenance, transportation, etc., amounting to about another $200 billion). We estimate that the efficiencies targeted by this Guidance can make a significant contribution to achieving the $100 billion redirection of defense budget dollars from unproductive to more productive purposes that is sought by Secretary Gates and Deputy Secretary Lynn over the next five years.

Since June, the senior leadership of the acquisition community – the Component Acquisition Executives (CAEs), senior logisticians and systems command leaders, OSD officials, and program executive officers (PEOs) and program managers (PMs) – has been meeting regularly with me to inform and craft this Guidance. We have analyzed data on the Department's practices, expenditures, and outcomes and examined various options for changing our practices. We have sought to base the specific actions I am directing today on the best data the Department has available to it. In some cases, however, this data is very limited. In these cases, the Guidance makes provision for future adjustments as experience and data accumulate so that unintended consequences can be detected and mitigated. We have conducted some preliminary estimates of the dollar savings anticipated from each action based on reasonable and gradual, but steady and determined, progress against a clear goal and confirmed that they can indeed be substantial.

Changing our business practices will require the continued close involvement of others. We have sought out the best ideas and initiatives from industry, many of which have been adopted in this Guidance. We have also sought the input of outside experts with decades of experience in defense acquisition.

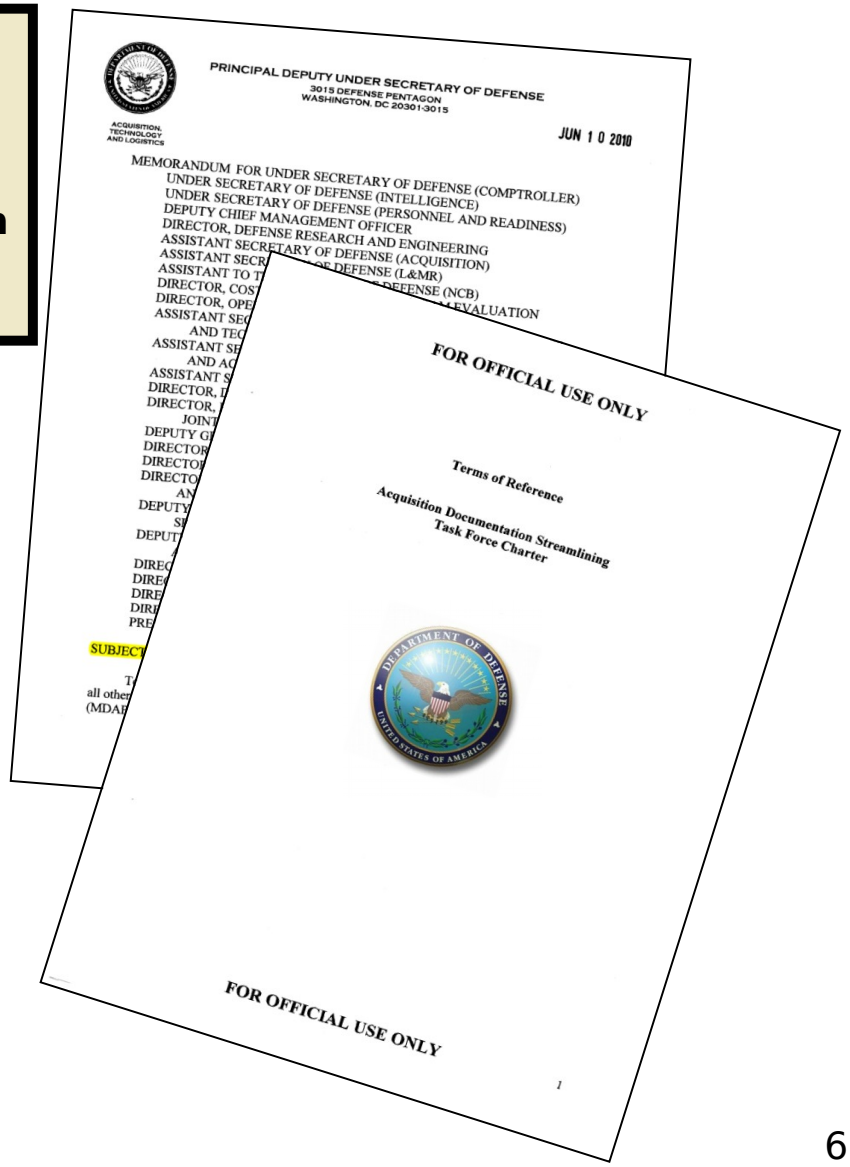
Acquisition Documentation Streamlining Task Force

MISSION: The mission of the Acquisition Documentation Streamlining Task Force is to examine and make recommendations of all of the documents currently required to support all Milestone and major decision points for each MDAP, MAIS, Business MAIS, and Special Interest program.

TASK FORCE PRODUCTS

- **A description of the core purpose and essential content of each document**
- **Recommendations for elimination/and or substantial streamlining of all currently required documentation. Dissenting views will be documented.**
- **Justification for retaining any document content "as is." Dissenting views will be documented.**
- **Examples of streamlined documents as appropriate**
- **Proposed revisions to policy, regulations, and other document guidance such as the Defense Acquisition Guidebook.**
- **Recommendations for links to other source documents that can be included by reference instead of duplicated or summarized.**



PRINCIPAL DEPUTY UNDER SECRETARY OF DEFENSE

MEMORANDUM FOR UNDER SECRETARY OF DEFENSE (COMPTROLLER)
UNDER SECRETARY OF DEFENSE (INTELLIGENCE)
DEPUTY CHIEF MANAGEMENT OFFICER
DIRECTOR, DEFENSE RESEARCH AND ENGINEERING
ASSISTANT SECRETARY OF DEFENSE (ACQUISITION)
FOR OFFICIAL USE ONLY
Terms of Reference
Acquisition Documentation Streamlining
Task Force Charter
FOR OFFICIAL USE ONLY

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

Why Streamline Documentation?

- **Prepared for senior management with little meaning for the preparers**
- **Too many pages; too little or irrelevant content**
- **Too much duplication of common information**
- **Insufficient planning detail**
- **Accretion of information requirements over time**
- **Streamlining efforts should be applicable at all levels of the Enterprise**

INTENT: Change the focus to documents that the Program team actually needs and uses to manage their Program:

Concept ✉ Design ✉ Sustainment

AT&L

5000.02 Reports status briefed at 31 March Senior Integration Group (SIG)

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

Reducing Low Value Statutory Requirements

Examples:

- **Request repeal of requirements for:**
  - **Retroactive 2366a & 2366b certifications**
  - **Full-up Nunn-McCurdy assessment process for "technical" breaches (critical cost breaches driven by exogenous quantity changes)**
- **Legislative Proposals**
  - **Currently at OMB, awaiting release to the Hill**

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

Reducing Volume and Cost of Congressional Reports

Examples:

- Legislative proposal requesting repeal of 167 (Department-wide) recurring reports to Congress has been submitted to OMB (includes 50 reports that are applicable to AT&L)
- Page Limitations
  - Maximum 5 page limit set for Congressional reports; exceptions must be justified
- Estimated Cost to Produce Report
  - Must be included on first page

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

Reducing Volume and Cost of Internal Reports

Examples:

- **Request for elimination of 46 internal reports has been approved**
- **Estimated Cost to Produce each remaining internal Report**
  - **Must be included on first page**

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

DAB Decision Briefing Templates

- **USD(AT&L) requested Development of Briefing Templates for:**
  - **Materiel Development Decision (drafted)**
  - **Milestone A (approved)**
  - **Milestone B (approved)**
  - **Milestone C (in process)**
  - **Full-Rate Production Decision Review (in process)**

DISTRIBUTION STATEMENT A -- Cleared for public release by OSR on 11 April 2011; SR Case # 11-S-XXXX applies

ADS TF Next Steps

- Release of annotated outlines for AS, SEP, PPP, LCSP* as “expected business practice”
  - AS and SEP completed and will be released soon
  - LCSP - L&MR-led team working PDUSD(AT&L) comments
  - PPP - SE-led team working PDUSD(AT&L) comments
- Coordinate review of remaining documents not under direct AT&L control – Intel, DT/OT, CAPE
  - Intel ready to brief new Life-Cycle Mission Data Plan (LMDP) construct to PDUSD(AT&L) – replaces Life-cycle Signature Support Plan + others
  - DT&E / OT&E to brief PDUSD(AT&L) on updated Test & Evaluation Master Plan (TEMP)
- Opportunities exist to create “Turbo-Tax” type documents
  - Should we pursue this? Who builds? Where hosted? Who resources?

* AS-Acquisition Strategy, SEP – Systems Engineering Plan, PPP-Program Protection Plan, LCSP – Life Cycle Sustainment Plan

What haven't we touched yet?

SPEED!

- **Streamlining the document generation processes is great, but if the process for approval is not changed to reflect putting responsibilities where they properly lie, we will take as long or longer to get documents approved**
- **Discussion questions:**
  - **Who should say YES??**
  - **Who can say NO?**
